

Dear Pradeep S Mehta Sir and T.K.Arun Sir

Thanks to ET for publishing views of Pradeep S Mehta on competition law and wide misuse of anti dumping duty (ADD) by industrial houses in the country to increase their monopoly and defeat law of competition in the country.

Just to give you an example. In last 12 months alone FIVE anti dumping duty investigations have been initiated by Ministry of Commerce against import of stainless steel at behest of Jindal Stainless Steel (JSL) alone based on misleading information provided by the company that it has more than 50% market share. The Ministry of Commerce has obliged the company without checking the hard fact of it's market share.

More over the company is demanding anti dumping duty on products/grades/sizes which it does not manufacture in the country and these products are needed for progress of the country and by critical sectors including nuclear and power plants, railway's etc.

Once again thanking ET and Mr Mehta for taking up such crucial issue. Hats off to ET.

highest regards

V.K.Arora

a loyal reader of ET for last three decades.
