Medium Enterprises (FISME)

JACOB CRASTA
Founder & Chairman, CM EnviroSystems Pvt. Ltd.,
and Chairman - Lsquare Eco Products Pvt. Ltd

CUTS International invites you to an online release of its discussion paper titled, "Bridging Trust Deficit: Enabling Ease of Running a Business in India". Following the release, there will be a panel discussion. The discussion will emphasise that facilitating business operations should go beyond enabling business establishments to prioritise smooth business operations. This entails addressing the inclination of officials to extract excessive rent from businesses, delay legitimate dues, and initiate litigation. This should be the central focus of the second phase of reforms.
