Session I - Changing nature of economic growth and job opportunities in India

- High growth, high unemployment, high inflation – Are we entering a new era of productivism?
- Emerging opportunities and challenges to the future of work in India.

Session II - How to bridge demand and supply gaps in skills for better access to future job opportunities in India

- Today's sunrise, tomorrow's sunset – Need for skilling and re-skilling for better alignment of India's workforce with current and future job requirements.
- Academia-industry linkages – Will the New Education Policy bridge the existing gaps?
