Scientist G and Group Coordinator  
MEITY  
(Keynote Speaker)

**SHIVANI JHA**  
eSports Player Welfare  
Association

**PRINCE GUPTA**  
CUTS International  
(Moderator)

The online gaming industry in India is a sunrise industry. As it remains largely unregulated, the discussion on player protection becomes urgent and necessary. Further, in light of the several state regulations coming up such as in Karnataka, Rajasthan, and Manipur and the Central Government's initiative to regulate the industry, we think it is necessary create discourse on player protection and other allied issues in the sector.

Thus, to engage on the issue of player protection and to discuss how to provide a regulatory 'Power-Up' to the players, CUTS and NDA are conducting this webinar. We look forward to extensive participation, productive discussion, and change that this conversation will bring towards an optimal regulation of the promising online gaming industry.
